The first MiCD Foundation Workshop - Myanmar

The "MiCD Foundation Workshop" is an exclusive knowledge charity project of MiCD Global Academy. The first MiCD Foundation Workshop was recently organized during 11th Annual Conference and CDE program of Myanmar Dental Association - Magway Regional Branch on 30th March 2019 in Nan Htike Thu Hotel (Magway). The program was coordinated by the key local organizer of the conference Dr. Aung Khine Maw. Our MiCD global advocator and MiCDian Dr. Nay Aung conducted the workshop along with MiCDian Dr. Ye Yint Aung and Dr. Phyo Zaw Paing who supported as volunteers for the program. This one-day MiCD Foundation Workshop was organized to introduce the MiCD concept and treatment protocol among progressive clinicians who desire to adopt "Do No Harm Dentistry" in their practice and serve patients with high ethical and standard of care. The workshop was a huge success with 67 participants and the academy is grateful to note the positive feedback from all participants and is encouraged to conduct more such programs in future.

The Academy sincerely would like to thank MiCDians; Dr. Nay Aung, Dr. Ye Yint Aung and Dr. Phyo Zaw Paing for their kind and selfless support towards Knowledge Charity project of MiCD Global Academy.
